---

**Seeking assignments in IT Field. Have extensive experience in Java/SQL/NOSQL/Linux/UNIX. Have extensive experience in Product Development/Open source/Proprietary Software.**

---

### **Abridgement**

- ✦ A focused professional **with over 7 years of experience in Product Development on UNIX/Linux Platform**
- ✦ **Have taken Professional Assignments. Primarily an Opensource Developer.**
- ✦ Proficient in implementing systems/procedures, formulating key software products to achieve required tasks.
- ✦ Deftness in designing and implementing systems / procedures to achieve required detail in product.
- ✦ A keen analyst with exceptional negotiation & management skills and abilities in liaising with distributed vendors in achieving desired software results.
- ✦ Also I have very good skills in UML/JavaScript/jQuery/UI(XSLT/XHTML/HTML/ CSS/SASS/SGML/YAML/ XML)
- ✦ Have worked on Routers Only On AIX based.
- ✦ I have in-depth knowledge of Oracle/MySQL/NoSQL primarily MongoDB.
- ✦ I am also an very good System/Network/Database Admin/Architect. Not to say I have a very good Network/Database Design Track Record.
- ✦ I am an expert SOA Developer.

### **Proficiency Forte**

#### **Product Development**

- ✦ Have very good skills in product certification and audits of Products.
- ✦ Am a good PRINCE2/PMP Management Professional.
- ✦ Very Good Skills in FreeBSD/NetBSD/Linux/Solaris/AIX.
- ✦ Very Good Skills in Kernel/Application Level.
- ✦ Very Good Skills in RAID 2,4,8.
- ✦ Very Good Skills in X11 on NetBSD and FreeBSD
- ✦ Very Good Skills in Debian/Fedora/Centos Distros.
- ✦ Very Good System Network Design/Administration Skills
- ✦ Very Good Skills in GNU Tools.
- ✦ Have skills in Java/JEE On UNIX/LINUX Operating Systems. Have achieved very good quality to end products/solutions/open source projects.
- ✦ Have very good skills in Weblogic / Websphere and Jboss Application Servers.
- ✦ Have very good experience in Oracle/MySQL databases.
- ✦ Have very good track record in SOA/REST Webservice Implementations.
- ✦ Have very good experience in Popular Open source Projects like Linux/FreeBSD/NetBSD.
- ✦ Have very good User Interface Implementations on a variety of popular browsers.
- ✦ Have very good domain knowledge of Cargo/Air transportation Products.
- ✦ Have very good domain knowledge of GPS Systems.
- ✦ Have very good knowledge of Telecom Reseller/Telecom Expense Management domain.
- ✦ Have very good knowledge of Generic Order Management Implementation.
- ✦ Have very good knowledge of software used in distributing/implementing data schemas/information.

### **Support Management**

- ↪ Always been a key support personnel in the Team. Providing vital inputs to issues/configurations and Performance issues.
- ↪ Always Provided information regarding quality/requirement/change management to overall teams within the organization or integrations with systems outside the company.
- ↪ Have given inputs on key product issues/usability of product/conformance to standards.

### **Operations**

- ↪ Have provided timely input to operations team right through the career. These involve Network and Database Design.
- ↪ Have provided support/bug fixing of Production Systems.

## **Experience Chronology(Open Source)**

### **LKML/Debian**

Worked as volunteer in the Linux Kernel Mailing List and Debian Distro. Worked Primarily on NAS/TCP/IP/Sheeva Plug/Guru Plug Developments. Have worked on RoHS Support of Debian. Have worked on Embedded Linux Primarily on PPC/ARM Hardware. This Primarily been done on the LKML Mailing Lists. Have also Supported Code on RAID 2/4/8 Setups. Have indepth Knowledge of the Linux Kernel Networking Stack.

### **FreeBSD**

Volunteered on IPC/SVR/Memory Management/TCP/IP Support. Have very good knowledge of Unix compatibility with FreeBSD Primarily the SVR Module in FreeBSD. Also Have very good knowledge of IPC Compatibility With Unix OS's. Have very good knowledge of TCP/IP Networking code.

### **NetBSD**

Worked primarily on the PPC/ARM Processors. Have worked on X11 Code base and Boot Code for ARM/PPC boards. Have worked on SPARC Machines primarily the X11 Code base.

### **Open SUSE**

Worked on Printing Daemons Primarily CUPS/Grub Boot loader/Network based systems.

### **Source Forge**

<http://sourceforge.net/u/userid-1444322/profile/>

## **Experience Chronology(Profesional)**

**Since Aug'13 with UNISYS/COLT/Flipkart**

### **Key Highlights:(Transportation Products/GPS Systems/Telecom VARS)**

- ↪ Worked with vendors on UNIX/LINUX Java based Products. Have functioned as a Key Product Development expert. Have functioned at a position of Lead.
- ↪ Have Developed very Good Skills in Dependency Injection Pattern. Multiple Dependency Frameworks like GUICE/Spring/Spring WS . Have Developed very good skills in EAI.
- ↪ Have developed very Good Skills in MVC/MVC2 Frameworks.
- ↪ Have Implemented solutions/Products From Scratch.
- ↪ Have Implement UI With XHTML/JSPX/JSP/POST/GET.
- ↪ Have implemented REST/AXIS Webservice Components.
- ↪ Have very good skills in NoSQL/Mongodb(Primarily)/Redis.

## **September 2010 to August 2013 with Synchronoss R&D Pvt Ltd**

### **Key Highlights:**

- ↳ Primarily worked on Order Management Products on Linux Operating Systems Using Java/JEE.
- ↳ Primarily worked on SQL/HTML/XSLT/SOAP/REST Implementations within the product.
- ↳ Worked primarily on Oracle Database.
- ↳ Worked on jQuery/JavaScript libraries.
- ↳ Worked on OJM Modelling.
- ↳ Worked on Ajax/DWR/JSON Libraries.

## **June 2006 to August 2008 with Symphony Services**

### **Key Highlights:**

- ↳ Primarily worked on a set of Telecom Management Products. These involved expense management, ETL, Data Processing and Reporting. Worked Primarily on ETL/Reporting/SQL/MVC/MDA.
- ↳ Worked on Solaris/Apache/Jboss Setup.
- ↳ Had implemented data look up of Dbase/CSV/EDI Data Exchange.

## **Certification/Publication**

1. Organization: Open Group  
Period: July'07-Sep'08  
Function: UNIX POSIX Certification Engineer: Have been a part of the UNIX POSIX Certification Group "The Austin Common Standards Revision Group".
2. Organization: DELL LINUX GROUP  
Period: October 10  
Function: Libnetdevname is a library that provides an API to map the kernel name(ethN names) of a network interface device to it's firmware provided alias name and vice versa.

## **IT Skills**

- ↳ Have very good skills in System Engineering/Administration/Database Administration and Networking.
- ↳ Have very good skills in Usability Engineering.
- ↳ Have very good skills in Audits/Certifications Primarily ISO10000/20000.
- ↳ Have very good Agile Management skills.
- ↳ Have very good skills in Build Tools like Maven/ANT.

## **Personal Information**

Date of Birth: 23<sup>rd</sup> May 1979  
Address: Sy No 91/6 Flat No 109 C Block Deepica Residency Nagavarapalya Main Road  
C V Raman Nager Bangalore - 560093.  
Star: Gemini.  
Hobbies: Reading/Music/Eating/Computer Installation/Volunteering.
